Most of the operators receive a raise in pay from \$5 a month upward. Jobs will be up for bids in the future the same as conductors' positions have been in the past and are at present. The operators have been seeking such recognition for some time.

C., has been transferred to the position of stenographer and clerk in the medical department connected with the English corps at Washington barracks, according to news received by his parents.

He expects to be called to a training station within a few days. Bert Webster, another Barre boy, went to Fort Ethan Allen yesterday, passed the physical examination for the state National Guard, and after passing a few days at home will return to the reservation to serve in C company.

Red Cross activities continued in Barre to-day and with the state campaign for 30,000 additional members drawing to a close the local committee is redoubting its efforts to obtain Barre's quota of 1,200. Tents pitched along North Main and South Main streets received an encouraging number of enrollments yesterday and again to-day registrars were at each station to receive subscriptions. #### She Gave Away \$300,000, Now She Is Cared for By One of Her Own Charities.

A strange story of unselfishness and reversed fortunes is in the June American Magazine. It has to do with Mrs. Marks Nathan.

"In Chicago the name of Marks Nathan is standardized as typifying Jewish charities. There are several Marks Nathan foundations, several Marks Nathan funds, a half dozen Marks Nathan scholarships.

"Mrs. Marks Nathan and her late husband gave fully \$300,000 to charities. After her husband's death Mrs. Nathan gave away more until she had only \$10,000 left upon which to live. That was lost in a bank failure, and now she is penniless and an inmate in a Home for Aged and Indigent Jews, of which she herself is a director!

"She began by making wire frames for hats with her own hands, for individuals, and expanded to a shop with several helpers for the limited market of those days. Then a great piece of fortune came along—hoopskirts swept into fashion and she swept along to a handsome profit by turning her facilities to the manufacture of wire hoops.

"With some of her earnings she bought a piece of land. The \$8,000 she invested became \$40,000 when she sold it as part of the site of the Santa Fe terminal. With \$20,000 of that she bought prairie land on what was then the city limits, and a few years later sold it for \$150,000 as the spot for the Illinois Central depot. Thereafter she made several other keen buys and was rated, 30 years ago, as one of the wealthy women of the region."

Elmer A. Scott was pleasantly surprised at his home in Graniteville on May 30, when a party of young people from Barre and Graniteville called to remind him of his 21st birthday. The greater part of the evening was spent in games and music. About midnight Miss Ruby Lewis of Barre played the national hymn and the party encircled the dining table, while they sang. A delightful surprise party was held in the home of Mr. and Mrs. Fred Bird of Plain street last evening when nearly 60 friends and neighbors of Mrs. John Chesser called to bid her farewell. Greetings were soon exchanged and an enjoyable evening was spent in games and music. Dainty refreshments of ice cream, cake and punch were served by Mrs. Robert Inglis, Mrs. Thomas Jeffrey, Mrs. Annabella Thompson and Mrs. Fred Bird. It was during a lull in the evening's activities that Mrs. Annie Dowers made the presentation of a suitable gift as a token of the friendship, Mrs. Chesser has long been a resident of Barre and it is with a feeling of regret that her friends look forward to her departure. She expects to leave for Bristol, Conn., with her daughter, Evelyn, next week, where Mr. Chesser is now employed.

About 50 of the neighbors gathered at the home of Mrs. Ida Martinson of Perrin street last evening in honor of Misses Mary and Dorothy Cordiner. The young ladies had been invited to play cards with the Martinson family, but when they entered the house they found a rather larger "card party" than they had expected. A short program, consisting of a solo by Miss Mildred Higgs and a reading by Miss Arletta Ritchie was given and games followed in quick succession. After refreshments of ice cream and cake had been served, Mrs. Edwin Keast presented each of the Misses Cordiner a black leather traveling bag as a tangible expression of the friendship and good will of the neighborhood of these young women who have been brought up in their midst. Miss Mary Cordiner feelingly responded. The young ladies are expected to leave the latter part of next week for the home of their brother, William, in Ames, Ia., where they plan to attend the coming session of the summer school of Ames college. #### SUPPORT HOOVER.

Food Director Is In Sympathy With the People.

What makes Herbert Clark Hoover a popular leader is the adventurous quality which he can give to the humdrum business of feeding the world. It isn't only because he fed Belgium, but the way he did it that appeals; the way he stood off the Germans, persuaded the Pope, dodged the English, picked up ships in unlikely ports, loaded them under the nose of bureaucratic prohibitions, went over, around, and through the biggest war that was ever waged without once falling afoul of it. This is what appeals, the genuine American manner, the regular possession of the American people.

It is perhaps because he shows signs of becoming a great popular leader that opposition has developed in certain quarters. And what bureaucrat could be blamed for quaking a little before the swift forward rush of this young world adventurer? Hoover facing the Boxer rebellion, holding himself the rank of mandarin, Hoover in South Africa, Hoover handling a whole Russian province with as much ease as the average man runs a farm, Hoover in Belgium—any one of these pictures is enough to make the

everlasting reputation of an average man. No wonder the people feel him the representative of their own urgent need to express the genius of democracy in the medium in which we as a people commonly work.

Hoover is the man who more than any other redeems us from the common misapprehension as a people incurably material. All the old ideals make it necessary to express national virtue in military terms, but here is a man who can put greatness into the buying of a shipload of wheat, into corn and onions and potatoes.

In appointing him Mr. Wilson has again demonstrated how closely he is in touch with the instinctive choice of the people.

Most of the work of this war has got to be done in just such crude materials as wheat and onions and potatoes; most of its victories must be won by harvesters and planters, by shipping clerks and manufacturers of canned goods and breakfast foods. The man who can make campaigns of that kind worth while to the men who fight them is the man for America.

Hoover is such a man.

And Hoover is the man whom certain sinister forces in Congress and the nation are trying to push aside.

Are the American people going to let them do it?—By Porter Emerson Browne of the Vigilantes.

Grass Clippings for the Poultry Flock.

Grass clippings are an excellent green feed for chickens. The backyard poultry flock of a family often lacks sufficient green feed with a consequent reduction of egg and meat production. With the easy availability of lawn clippings the city poultryman can always have green feed throughout the summer for his chickens. The flock can be fed daily as much of the green clippings as they will eat. If any continued bowel trouble shows, the amount should be reduced. The remainder of the clippings can be allowed to dry and fed moistened during the time between lawn cuttings.

Amounts in excess can be dried for winter use. Dried grass clippings are a good green feed for winter. They can be dried and stored in sacks. These dried clippings, moistened and fed to the flock, are a very fair substitute for the succulent green feeds of summer.
